

Garden Guide

April

Feature Plant

Parsley

Iron rich & a household favourite, Parsley is a versatile herb used extensively in culinary dishes and holistic health.

Parsley is a super easy herb to grow & is delicious to boot! Originating from the rocky hillsides of Greece, modern varieties of Parsley prefer well drained, rich soil and thrive in a full sun (for the Italian leaf variety) to part shade position (for the curly leaf variety).

Best kept with a regular watering regime, as required but be careful not to overwater. A top up of fertiliser every 4-6 weeks with an organic based fertiliser like Super Growth.

For best results, begin planting with a seaweed liquid tonic like Neptune and you'll have crisp, tasty, fresh parsley for weeks to come!

Top Tip: Improve the flavours of your tomatoes and asparagus by planting your parsley nearby!

Did you Know?

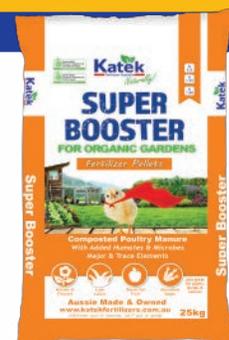

Next time you see a Snapdragon flower, squeeze the sides of the flower and a dragon's mouth will appear to open & close!

"Little things seem nothing, but they give peace, like those meadow flowers which individually seem odorless but all together perfume the air."

Georges Bernanos

Feature Product

Super Booster Pellets

WITH HUMATES & MICROBES

The perfect garden bed boost! For any new garden bed, dig in some Super Booster Pellets for added organic matter. The composted manure will slowly release a range of essential nutrients to the new plants as they grow.

Available in 15 & 25kg bags

Tropical

Beans	Beetroot	Cucumber
Lettuce	Squash	Zucchini

Bob & Glenise Wahrlich, Gympie, Wide Bay QLD

Bob & Glenise have been using Katek products on their stunning garden since 2013. Being situated at the corner of their street, they get plenty of comments on their garden as the flowers are on display for all to enjoy.

“We are happy to promote Katek products as they are a local company. We use all of the different products; the Potting Mix, Rose Fertiliser, Super Growth, Mulch and Blood and Bone”

I love to plant petunias for colour under the roses, I have only started having a show of colour and growth since using Katek”.
