

# Garden Guide

## July

### Feature Plant

## Pansies

An explosion of colourful, cheery faces in your garden this cold season - the common Pansy has come a long way from their lineage of the tri-colour viola wildflower! With a variety of hybrid species available today, these small flowers will grow exceptionally well as the cool weather rolls around. Best kept in a part shaded position, protected from the heat of the day, your pansies will flower well through winter and into spring!

Don't forget a good watering once a week and every three weeks with a plant tonic, like Neptune Seaweed Extract and make sure to put down a layer of Not Just Mulch too!

Known as representations of thought and remembrance, these flowers and the plant itself

have been used in Chinese medicine for centuries due to them containing salicylic acid - found in most modern day aspirins! So they're not just a pretty face - try your hand at growing these little beauties - beneficial in more ways than one!

## News & Events

### Garden Expo

12,13,14 July  
Nambour Showgrounds,  
Nambour

### New Product Launch!

We will be launching an exciting new high performance liquid fertiliser next month! We are also excited about our new 20kg packaging size for our extremely popular Citrus & Fruit fertiliser!

## Feature Product

### Not Just Mulch

Keep your weeds under control and maintain moisture around your garden! Our specialised mulch is not like other mulch products as it is poultry manure based! The nutrients are released into the soil as they compost down and therefore keeping your plants happy & healthy! We recommend spreading a layer of mulch 4cm thick - just wait til you see the benefits of using this fantastic product!

## What to Plant

### Flowers

#### Cool Climate/Temperate

Alyssum	Aquilegia	Begonia
Calendula	Cineraria	Cornflower
Delphinium	Dianthus	Foxglove
Geranium	Hollyhock	Larkspur
Lobelia	Nemesia	Pansy
Polyanthus	Poppy	Primula
Ranunculus	Snapdragon	Viola

#### Subtropical

Ageratum	Alyssum	Candytuft
Carnation	Cornflower	Cyclamen
Delphinium	Dianthus	Everlasting Daisy
Geranium	Iceland Poppy	Impatiens
Marigold	Pansy	Sweet Pea

#### Tropical

Ageratum	Aster	Balsam
Carnation	Cosmos	Dahlia
Dianthus,	Everlasting Daisy	Gazania
Geranium	Gerbera	Impatiens
Kangaroo Paw	Marigold	Nasturtium
Petunia	Portulaca	Snapdragon
Sunflower	Verbena	Zinnia

-  Prune Roses & follow up with a spray of Lime Sulphur.
-  Fertilise winter growing vegetables mid-morning with our Super Growth All Purpose Liquid Fertilizer
-  Reduce frost injury by gently hosing over plants first thing in the morning. Don't remove frost-damaged sections of plants to provide protection to the still growing plants underneath.
-  Prune plants that flowered in summer or autumn
-  Prepare your vege patch for spring with some composted manure pellets like Super Booster.

## Super Chicken's Top Tips

Peas & Snow Peas	Radishes	Shallots
Spinach		

#### Subtropical

Cabbage	Garlic	Lettuce
Marjoram	Spinach	Thyme

#### Tropical

Basil	Broccoli	Capsicum
Cucumber	Lettuce	Rocket
Pak Choy	Radish	Turnip

## Feature Farm Ray Eather

### Ray Eather, Marlee NSW

"My name is Ray & I live in a small country town in NSW. I grow my own vegetables and grow and sell seedlings at local markets.

After trying Super Booster "I couldn't believe the difference it had made in such a short time. I really was quite blown away, I have never had such a great crop and harvest! I am always complimented on how healthy and green my seedlings and vegetables are.

I am a true believer in Katek's product as I have experienced it first hand. My plans are to grow my little seedling business into something for my kids and pass on my love for gardening".

Thanks for your Support Ray! We like nothing better than to hear from customers using our products and loving them!
