Pelletised Fertilizer

**Naturally Composted Poultry Manure
With Added Humates & Microbes**

SUPER BOOSTER

Pelletised Fertilizer

COMPOSTED MANURE

PLUS HUMATES & MICROBES:

- Humates have great benefits for the soil, improving nutrient holding ability and helping to reduce nutrient lockup.
- The addition of microbes stimulates biological activity in which in turn leads to improved nutrient availability, retention and nutrient uptake by the growing crop.

The Benefits of Using a Slow Release Composted Fertilizer:

- Supports strong plant & root growth
- Improves nutrient availability to crops
- Fast results balanced with a slow release of essential nutrients

Certifications & Quality Control Measures:

- Australian Organic Certified Input (451)
- USDA NOP compliant
- Compliant with the requirements of Australian Standard for Composts AS 4454
- We follow a strict pasteurization process to ensure our products are pathogen & weed free
- Compliant with Freshcare supplier requirements

Usage

- Suitable for a broad range of crops
- Suited to all types of application equipment incl. seeders & spreaders
- Used extensively on lawns/turf, flowers, vegetables, fruit trees
- Safe for natives, palms & shrubs
