

NEPTUNE

Seaweed Concentrate

Plant Health Treatment
Builds Resistance Against Pests & Disease

NEPTUNE

Seaweed Concentrate

Plant Health Treatment

The Benefits of Using Liquid Seaweed:

- Seaweed is at its most useful in times of stress. By helping the development of strong plant cells, regular applications can build resistance and aid quick recovery from stresses such as hot, dry weather or frosts.
- Builds resistance to pests and disease.
- Supports strong plant growth & root development
- Improves nutrient uptake
- Helps feed microbial activity in the soil
- Seaweed has a broad and balanced range of nutrients, which helps promote early flowering and cropping as well as increasing the sugar content of fruit.

Usage

- Suitable for all plants, vegetables, flowers, lawns, fruit trees.
- Can be used on seedlings through to established plants.
- Safe for natives, palms & shrubs

Liquid Seaweed Extract
derived from
Ascophyllum
Nodosum
a unique intertidal
seaweed that grows
exclusively in the
North Atlantic Ocean

**Builds Pest & Disease
Resistance**

**Helps Feed Microbial
Activity in the Soil**

**Improves Nutrient
Uptake**

**Supports Strong
Plant Growth &
Root Development**

Packaging: 1L & 5L bottles, 20L drums
