SUPER KELP

Seaweed Concentrate

Liquid Seaweed Concentrate

The Benefits of Using Seaweed:

- Seaweed is most useful in times of stress. By helping the development of strong plant cells, regular applications can build resistance and aid quick recovery from stresses such as hot, dry weather or frosts.
- Builds resistance to pests and disease.
- Supports strong plant growth & root development
- Improves nutrient uptake
- Seaweed has a broad and balanced range of nutrients, which helps promote early flowering and cropping and increases sugar content of fruit.

Certifications & Quality Control Measures:

- Australian Organic Certified Input (451) suitable for use on organic farms.
- USDA NOP compliant
- Regular pathogen testing in accordance with certification requirements

Usage

- Suitable for all plants, vegetables, flowers, lawns, fruit trees.
- Safe for natives, palms & shrubs
