

SUPER CAL

Liquid Clay Breaker

100% Available Calcium
Fast Acting Liquid Clay Breaker

SUPER CAL

Liquid Clay Breaker

	w/w
Sulphur (S)	10%
Calcium (Ca)	6%

Fast Acting, easy to use liquid concentrate that delivers 100% available calcium to soils with poor structure and nutritional imbalances.

Super Cal is formulated to improve soil structure by breaking up clay soils, improving water infiltration and assisting with the leaching of harmful soil salts.

Boosts general plant health, root growth and the quality and shelf life of fruits and vegetables.

The Benefits of Using Super Cal:

- Breaks up clay
- Balances the soil
- Improves drainage and deep moisture retention
- Easier to use and apply than traditional gypsum products
- no more lifting heavy bags!
- Completely soluble, will not block filters and screens and once in solution will not require further agitation.

Usage

- Can be applied by drip, sprinkler, flood irrigation, surface broadcast, banded or fertigated
- Consistent product allows for uniform application across the soil
- Easy to use through all common spray equipment
- No additional filtration required
- **Super Cal will have limited compatibilities with other products. Always perform a jar test before tank mixing**

100% AVAILABLE CALCIUM

FAST ACTING, EASY TO USE
LIQUID CONCENTRATE

IMPROVES SOIL STRUCTURE
& ASSISTS IN THE REMOVAL
OF HARMFUL SOIL SALTS

INCREASES FRUIT &
VEGETABLE QUALITY,
YIELD & SHELF LIFE

1L OF SUPER CAL
IS MORE EFFECTIVE
THAN 20KG GYPSUM

Packaging: 1L & 2L Hose-On bottles. 20L, 200L & 1000L pods.
