

SUPERSTART TRIO

Biological Plant Starter

Organic Based & Easy to Use
Biologically Enhanced Plant Starter Fertiliser

SUPERSTART TRIO

Biological Plant Starter

SuperStart Trio is an organic based liquid fertiliser, rich in amino acids and carbon. SuperStart Trio contains several highly effective proprietary strains of PGPR (Plant Growth Promoting Rhizobacteria).

Provides a safe & secure start for young plants by providing gentle NPK. High in carbon, it sets up the environment for the accompanying biology to thrive.

The Benefits of Using SuperStart Trio:

- Enhanced plant growth, yield potential and harvest quality
- Root growth promotion - improved production of root hairs and tips for increased water and nutrient uptake
- Better nutrient solubilisation and cycling which improves nutrient availability for macro & micro nutrients from both applied fertiliser and the soil bank
- Enhanced Phosphorous uptake by greater root volume and Phosphorous solubilising enzymes
- Iron uptake and metal acquisition (Calcium & others) are improved by the production of natural chelating agents (siderophores)

Usage

- Applied below the soil surface at or prior to planting via direct drill equipment or planters
- Able to be applied through trickle tape
- No additional filtration required
- Before tank mixing with other products always perform jar test

Nitrogen (N)	3.8%
Phosphorous (P)	1.5%
Potassium (K)	2.6%
Sulphur (S)	0.3%

ACTIVE INGREDIENTS

Plant Growth Promoting Rhizobacteria 1%
Bacillus licheniformis
20x10⁹cfu/Lt
Bacillus methylotrophicus
40x10⁸ cfu/Lt
Bacillus subtilis
40x10⁸ cfu/Lt

AMINO ACID PROFILE

Aspartic acid 1.232%
Threonine 0.47%
Serine 0.691%
Glutamic acid 2.53%
Proline 1.64%
Glycine 1.08%
Alanine 2.242%
Cystine 0.35%
Valine 1.118%
Methionine 0.25%
Isoleucine 0.677%
Leucine 1.618%
Tyrosine 0.384%
Phenylalanine 0.653%
Lysine 0.528%
Histidine 0.552%
Arginine 0.653%
Tryptophan 0.062%
Total Amino Acid 16.73%

**Contains 20%
Microbe Enhancing
Carbon**

Packaging: 20L, 200L & 1000L pods.
