

SUPER FEED

Powerful Plant Food

Organic Based, Easy to Use Plant Booster
Formulated for Quick Response

SUPER FEED

Powerful Plant Food

Nitrogen (N)	12.8%
Phosphorous (P)	2.4%
Potassium (K)	7.2%
Sulphur (S)	1.6%

Organic Based, easy to use all-purpose liquid fertiliser suitable for a broad range of home garden and commercial agricultural applications.

Combining the power of high quality liquid fish with plant available nitrogen, phosphorous and potassium, Super Feed will encourage strong and healthy plant growth at every stage of development.

Super Feed is readily soluble, will not block filters and screens and once in solution will not require further agitation.

The Benefits of Using Super Feed Liquid:

- Supports strong plant & root growth
- Stimulates biological activity which helps in breaking down organic matter
- Improves nutrient availability to crops

Usage

- Suitable for a broad range of turf grasses and lawns, flowering plants, vegetable, fruit and broadacre crops
- Applied below the soil surface prior to planting or as a foliar spray at any point during the crops development as directed by your agronomist
- Easy to use through all common spray equipment
- No additional filtration required
- Before tank mixing with other products always perform jar test

Application

- For home garden application rates consult the product label
- Commercial applications range between 5-45L per hectare

**QUICK RESPONSE,
ALL PURPOSE LIQUID**

**CAN BE APPLIED UNDER THE
GROUND, AS A FOLIAR OR
THROUGH FERTIGATION**
