SUPER GRASS

Lawn Fertilizer Granules

ORGANIC/SYNTHETIC BLEND

- Based on composted poultry manure with major & trace elements
- A balanced mix of high performance synthetic granules and composted organic fertiliser for sustained green growth
- Steady, continuous feeding in both slow and quick release forms

The Benefits of Using a Fertilizer based on Composted Manure:

- Supports healthy grass and root growth
- Adds organic matter and enhances biology within the soil over time
- Fast results balanced with a slow release of essential nutrients for a lush green lawn

Certifications & Quality Control Measures:

- Compliant with the requirements of Australian Standard for Composts AS 4454
- We follow a strict pasteurization process to ensure our products are pathogen & weed free

Usage

- Suitable for all types of natural and hybrid turf & lawns
- Suitable for plants, vegetables and fruit trees
- Easy to apply
- Suited to all types of application equipment incl. seeders and spreaders
